- HTML/CSS/JavaScript
- Web design
- Copy editing
- Creative Cloud apps
- Video editing/ shooting
- broadcasting equipment

STARBUCKS

I have also worked at Starbucks since 2018, and I feel I have gained a lot there. As a Starbucks barista one of the most important standards for me to uphold is our mission statement, which is to inspire and nurture the human spirit. This philosophy applies to almost everything we do as Barista's, specifically how we interact with our customers and other partners. I feel having embraced this philosophy gives me the ability to collaborate well with future clients and co-workers.
